MAPAbabae:
Map for and with Women

Arnalie Faye Vicario
Information Communications and Technology Management Service
Department of Social Welfare and Development
Pista Ng Mapa, Dumaguete City, August 1-3, 2019

Hi, I'm Nalie!

I **map** for work.

.. and also,
voluntarily.

☺

Arnalie Faye S. Vicario
ITO II-GIS / OSM Volunteer /
Geoladies Volunteer / Mom-to-be
@arnalielsewhere

Outline

I. MAPAbabae

- Events and Results
    - First MAPAbabae Mapathon Workshop
    - MAPAbabae II: Mapping VAWC Facilities
    - MAPAbabae 2019 #WhenWomenMAp

- Next Steps

II. Mental Health AWHEREness Map

III. Location is Personal (Experiences)

- Choice of Route
    - How do I get from point A to point B?

- Status Change
    - From a single lady to a wife/mom-to-be

First MAPAbabae Mapathon Workshop

#DSWDMAPAbabae

MAPAbabae:

OpenStreetMap Workshop and Mapathon
with Women and For Women

(Source: OSM and MAPAbabae participants: DSWD employees and OSM PH volunteers)

MAPAbabae II: Mapping VAWC Facilities

MAPAbabae II: Mapping VAWC Facilities

Information on:

- Other Facilities includes:

Mapathon Instructions
http://bit.ly/MAPAbabaeIIinstructions

Map these VAWC facilities:
http://bit.ly/MAPAbabaeIIList

through...

MapContrib:
http://bit.ly/MAPAbabaeII

or simply...

http://bit.ly/VAWmapPH
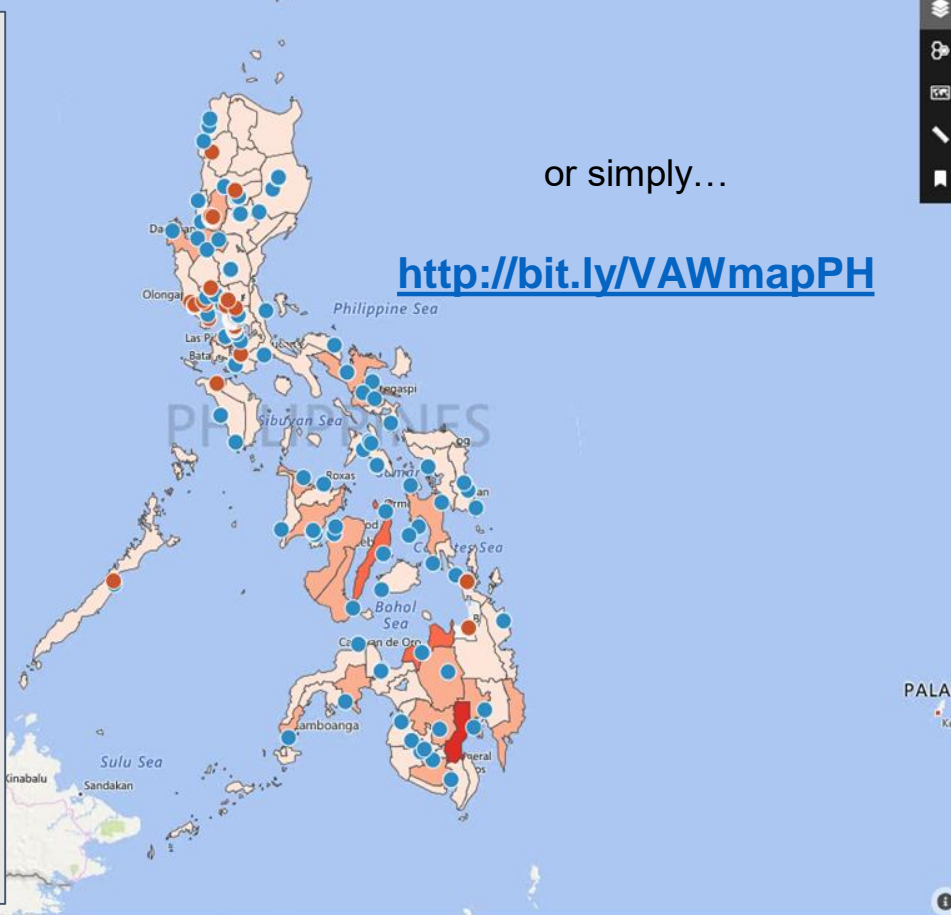

Map Legend

Facilities by type of client

- Women and Children
- Women
- Children
- Others (e.g. community)

Operator Type ☑
Facilities by type of operator

- Government
- Private/NGO/Religious

DSWD Centers For Women ☐

Barangay Halls ☐

Police Stations ☐

Hospitals ☐

Breastfeeding Rooms / Diaper Changin... ☐

Daycare / Childcare Centers ☐

Number of VAWC Cases (2017) ☑

1 - 500

MAPAbabae II: Learning and Challenges

These facilities are not mapped.

These facilities need to be mapped.

But some facilities must be hidden.

The Map is not yet complete.

There are still lots to be mapped.

MAPAbabae 2019: When Women Map

#DSWDMAPAbabae

MAPAbabae 2019: When Women Map

Source: Erwin Olario

MAPAbabae: Testimonials

- "I recognized OSM as a venue to **empower local knowledge**."

- "Maps are useful to **locate facilities for** operations especially in the **far-flung areas**."

- **"Women's perspectives matter.** Inclusive mapping may bolster inclusiveness in political, social, and economic areas. It can be a tool for public participation and hopefully, democratization."

DSWD MAPAbabae: Next Steps

- We want MAPAbabae to be an **annual** thing.

- Suggested Topics for next activities:
  - Mapping budget for greater transparency
  - Social media safety for women. How can women protect themselves from inappropriate advances in social media and other websites.
  - Include persons with disabilities in the OSM activities

- DSWD can **partner** with DSWD Field Offices, academe and/or NGO's for future activities of MAPAbabae.

Mental Health AWHEREness Map (by Andi Tabinas)

- Problem: Inadequate physical and human resources for mental health

- Maps can help in our advocacy for MENTAL HEALTH AWARENESS

- Maps can show **where the nearest help is**, and encourage people to **seek professional help**.

14

Mental Health AWHEREness Map (by Andi Tabinas)

Mental Health AWHEREness is an online platform and a **map** that shows the locations and information of mental health services to make it easier for people to look for professional help.

https://mentalhealthawhereness.com

Location is Personal (Experiences)

Story: Choice of Route - *How do I get from point A to point B?*

Image by rukku, 2015; Source: Mapillary

Image by yogi, 2016; Source: Mapillary

Location is Personal (Experiences)

We all have different motivation in choosing our own path.

It's just that

women are **more vulnerable** than men.

Location is Personal (Experiences)

Story 2: Status Change:

From a single lady to a wife/mom-to-be

Source: NCDA

Source: Women Reprezent by Jen Ayco, 2018; Erwin Olario

Location is Personal (Experiences)

Empathy

through mapping.

As a conclusion...

We … "**have very different priorities and perspectives but not one more important than the other.**"

\- Maning Sambale, 2013
https://www.openstreetmap.org/user/maning/diary/19956

As a conclusion...

Inclusion (involvement)
and
diversity (representation)

ensures **visibility** of all
sectors/groups **on the map**.
